Technical Information

Adenovirus Antigen Rapid Test

INTENDED USE

Rapid qualitative immunochromatographic test for detection of adenovirus antigen in human fecal specimens for professional in vitro diagnostic use.

PROFESSIONAL USE

For professional in vitro diagnostic screening. Reactive screening results require follow-up according to the applicable testing algorithm and approved IFU.

Nipigon Catalog No.	**NIP-RT-INF-026**
Specimen	**Feces**
Format	**Cassette**
Time to Result	**See approved labeling**
Storage	**See approved labeling**
Shelf Life	**See approved labeling**
Detection Target	**Adenovirus antigen**

PRODUCT NOTE

For professional in vitro diagnostic use. Use the approved market-specific labeling and instructions for use for specimen handling, test procedure, result interpretation and regulatory information.
