Technical Information

HAV IgM Rapid Test

INTENDED USE

Colloidal-gold immunoassay for qualitative detection of IgM antibody to hepatitis A virus (HAV), used as an aid in the diagnosis of HAV infection.

PROFESSIONAL USE

Professional in vitro diagnostic testing. The current product page specimen-preparation section supports serum or plasma.

Nipigon Catalog No.	NIP-RT-INF-005
Product Category	Infectious Disease Rapid Test
Specimen	Serum / Plasma
Format	Cassette
Time to Result	20 min
Storage	4-30 °C
Shelf Life	24 months
Analytical Sensitivity	Not stated

PRODUCT INFORMATION

For professional in vitro diagnostic use. Refer to the approved product labeling and instructions for use for market-specific information.
