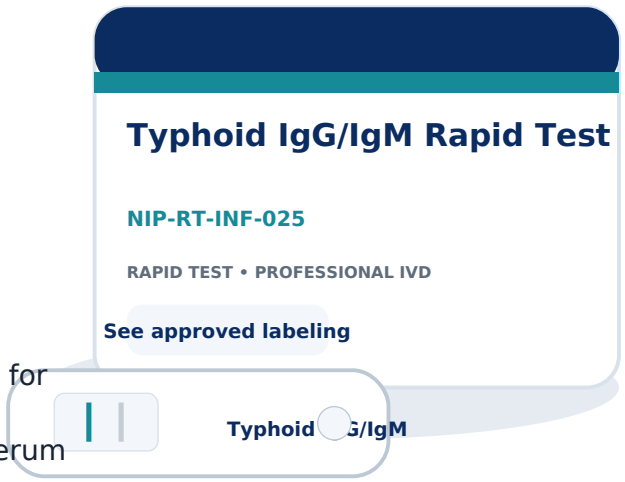
Typhoid IgG/IgM Rapid Test

Salmonella Typhi IgG and IgM Antibody Detection

NIP-RT-INF-025

Professional rapid diagnostic test datasheet



PRODUCT OVERVIEW

Rapid qualitative immunochromatographic test for detection of IgG and IgM antibodies associated with typhoid infection in human whole blood, serum or plasma, for professional in vitro diagnostic use.

Technical Information

Typhoid IgG/IgM Rapid Test

INTENDED USE

Rapid qualitative immunochromatographic test for detection of IgG and IgM antibodies associated with typhoid infection in human whole blood, serum or plasma, for professional in vitro diagnostic use.

PROFESSIONAL USE

For professional in vitro diagnostic screening. Reactive screening results require follow-up according to the applicable testing algorithm and approved IFU.

Nipigon Catalog No.	**NIP-RT-INF-025**
Specimen	**Whole Blood / Serum / Plasma**
Format	**Cassette**
Time to Result	**See approved labeling**
Storage	**See approved labeling**
Shelf Life	**See approved labeling**
Detection Target	**Typhoid-associated IgG and IgM antibodies**

PRODUCT NOTE

For professional in vitro diagnostic use. Use the approved market-specific labeling and instructions for use for specimen handling, test procedure, result interpretation and regulatory information.
