NP-300C

Chemistry Analyzer

7 in
Touch screen

20
Incubating positions

1000
Test storage

TECHNICAL SPECIFICATIONS

NP-300C | Chemistry Analyzer

Model

NP-300C

Drift

<0.005O.D/hr

Display

7inch touch screen

Storage

Over 200 programs, 1000 test

Printer

built-in therml printer

Power Supply

AC 110V/60HZ or 220V/50 HZ

LIS software

Optical

Reading cuvette

Both flow through cell and direct reading cuvette

quality control

excellent Q.C Function, Q.C Chart may be displayed and prented

Measuring volume

500uL

measuring system

End point, fixed time, Multistandards, Differential Biochromatic and Immunturbidimetric,etc
Photometric Linearity; +2% (0~ 3000 OD)
photometric Accuracy; +1% (0~ 3000 OD)
carry-over:<%1

TECHNICAL SPECIFICATIONS

NP-300C | Chemistry Analyzer

Interface

USB port for external printer,
keyboard, software update(optional)

Dimensions

34cm x 38cm x 18cm

Weight

8kg

Incubator

20 incubating positions

photometric system

light source; 6V/10W halogen lamp
Wave lenght; 620/578/564/510/492/405/340/nm, more filters upon request
wavelength accuracy; + 2nm

Thermostatic control

Temperature;30,37,25 celecious
precision;+ 0.1 celecious

Product highlights

- Powerful software
- 7 Inch touch screen
- multi language
- built in printer
- usb port for external printer

TEST MENU

NP-300C | Chemistry Analyzer

Lipid Profile

Chol TG, HDL, LDL

Kidney Function test

Urea, Creatinine, Uric acid

Liver Function test

AST, ALT, ALP, BiLT, BİLD

Diabetics

Glucose, Fructosamine, homocysteine, HbA1c

Electrolytes

K, Na, Cl, Ca, Mg, P

others

ASOT, RF, CRP, Anti-CCP, vitamin D
D-dimer,troponin, APOal, APOB
